

Veeam Cloud Connect

Fast, secure cloud-based backup and replication

Challenge

Even a few moments of downtime can have a significant impact for any organization. It's critical that you can maintain business continuity and remain resilient.

Master the 3-2-1-1-0 Rule without investing money and resources into a second site or adding bandwidth. Veeam Cloud Connect offers fast and secure backup and recovery for data centers, endpoints and the cloud, all from a single web-based console. Getting started is as simple as selecting a service provider from our global network of partners and pointing your backup or replica jobs to the cloud. Detect and identify cyberthreats

Outcomes

- ✓ Stay safe from ransomware
- ✓ Meet low recovery point objectives (RPOs)
- ✓ Achieve 3-2-1-1-0 Rule best practice
- ✓ Maintain business continuity with DRaaS

Key capabilities

Easily send backup and replica jobs off-site

Built into Veeam Data Platform, send backups and replicas to a service provider in a few clicks

Securely designed

End-to-end encryption protects data at the source and in-flight through a secure SSL/TLS connection

Maintain business continuity with DRaaS

Meet the most stringent recovery objectives from minutes to seconds with Continuous Data Protection (CDP)

Failover and failback with minimal disruption

Achieve full- or partial-site failover to a remote disaster recovery (DR) site from any location through a secure web portal

Managed Backup and DR as-a-Service

With Veeam-powered Service Providers

 Datacenter	 Cloud	 Endpoints	 SaaS
 VMware vSphere	 AWS	 Windows OS	 Microsoft 365
 Microsoft Hyper-V	 Microsoft Azure	 Mac OS	 Microsoft Teams
 Nutanix AHV	 Google Cloud	 Linux	 Salesforce
 Red Hat	 IBM Cloud		
 Windows Server	 VMware Cloud Director		
 NAS	 Kubernetes		
 Linux			
 Oracle Linux KVM

Customer quote

“ This completely integrated approach enabled us to avoid setting up VPN tunnels for backup data streams... we were able to set up a full Veeam Cloud Connect solution — it’s no longer just externalized backup, but also a full replication of our virtual machines (VMs). ”
